

GLISODIN® IN SUPPORT OF DERMATOLOGICAL AND AESTHETIC TREATMENTS

As GliSODin® assists in healing, enhancing the results of such procedures, it also supports overall skin health and appearance.

Comprehensive skin care starts and ends with the habits of the individuals. More and more, patients are weighing the value of preventative solutions and reduced recovery times. Patients are also participating in enhancing and protecting their results.

GliSODin® reinforces the value of the daily routine and enhances the benefits of the topical and clinical treatments it is combined with.
